Q2

A screenshot of the LandingLens web interface. The main window displays a facial analysis model. On the left, there's a sidebar with navigation icons for Home, Projects, Examples, and Community. The central area shows a large image of a woman's face with a dashed blue bounding box around it. Below the image is a smaller thumbnail of the same face. To the right of the image, there's a 'Confidence Threshold' slider set to 0.31, a 'Deploy' button, and a 'Prediction' section showing 'Cry (1)' and 'irritated (1)' with corresponding colored dots. The top of the browser shows the URL 'https://app.landing.ai/app/149557611476996/pr/149557766201350/data/databrowser?filters=%257B%2527D&rightSidebar=model_performance'.
